Meet the companies that have
recently joined us

FOREWORD

A growing community, new perspectives

The growth of the AmCham community is not only a reflection of numbers, but of the trust, relevance, and shared purpose that bring companies together. Our newest members join a platform built on dialogue, collaboration, and the belief that business can play an active role in shaping a more competitive and forward-looking Croatia. Their perspectives will enrich the conversations we lead: from innovation and talent to resilience, regulation, and international growth. We are pleased to welcome them to AmCham Croatia and look forward to the ideas, expertise, and partnerships they will bring to our community.
