

Three Seas Initiative Webinar: Opportunities for U.S. Companies

The Three Seas Initiative, 3SI, is a commercially driven platform for improving connections among 12 EU Member States between the Baltic, Black, and Adriatic seas: Austria, Bulgaria, Croatia, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovakia and Slovenia.

3SI aims to bridge the infrastructure gap between Northern and Southern Europe and spur investment in the region. This dynamic region offers unique opportunities and untapped growth potential for U.S. companies beyond hyper-competitive Western European markets.

There are now 90 total priority infrastructure projects under the Three Seas Initiative, totaling an estimated investment value of \$204 billion. The project type mix is 49% transportation, 37% energy, and 14% digital infrastructure.

Join our webinar to explore two key questions: where is the Three Seas Initiative headed and how can U.S. companies participate?

What You Will Learn

- How to tap into \$204 billion of potential opportunities in the Three Seas Region, home to 12 European countries growing at 3.5%.
- Find out about infrastructure projects spanning the digital, energy, and transportation sectors
- The region's best prospects and investment fund; how your company can win new business.
- The Latvian Government's plans for the June 20-22 Three Seas Initiative Summit and Business Forum in Riga, Latvia.
